

Howdy-Do Hemp Oil

Try an easy peasy furniture sealer! Hemp Oil dries to a matte finish and will not produce a gloss or even much sheen.

This naturally thin viscosity oil will penetrate porous surfaces well. Use on bare wood, over Dixie Belle Paint chalk mineral paint, cutting boards, carved utensils, and to revive old wood finishes.

A little goes a long way and will harden with DBP within 30 days to create a beautiful, durable, water resistant finish. Howdy Do Hemp Oil is most popular over the color Caviar!
