

Slick Stick

Slick Stick allows you to paint shiny, slick, or slippery surfaces with ease! Surfaces like PVC, glass, Formica, laminate, metal, and more are easily painted and stay painted.

Slick Stick is a problem solving product and not needed for every project.

First, clean your piece with White Lightning. Paint one coat of Slick Stick and let dry for 2-3 hours. Apply a second coat of Slick Stick and let dry overnight.

Size: 8oz, 16oz, and 32oz
