

Nutri-Turf

Targeted Biostimulant + Fertilizer

Nano-sized nutrients specifically formulated to support soil biology and feed turf.

Nutri-Turf is specifically formulated to help existing lawns and native grasses thrive. The liquid solution contains an ideal balance of NPK, elicitors, enzymes, and **NanoRelease™** Technology, so grass can immediately absorb the benefits through the leaves and root system. Spraying **Nutri-Turf** directly onto turfgrass delivers complete, targeted nutrition with minimal waste. This formula resists photochemical breakdown from the sun's rays and maintains a neutral charge, preventing unwanted reactions with other chemicals and burning. **Nutri-Turf** is the ideal maintenance liquid fertilizer for both cool-season and warm-season grasses whether it is lawns, athletic fields, schools, recreational fields, parks, golf courses, or roadsides.
