## Lawn Fertilizer

Want to be the envy of the neighborhood without a lawn service? The best lawn on the block comes from solid soil biology and Safe Green Lawn has just that! It is safe for Fido and the kids; there is no need to worry about toxic chemicals because it is pesticide free. Building soil biology takes care of thatch naturally providing more growing power to your lawn, due to the DAIRY DOO® and Humate action packed formula!

Phosphorous-free, Safe Green Lawn can be used around lakes, rivers and streams without the fear of polluting. Apply through a broadcast spreader for new or existing lawns. Use Safe Green Lawn at a rate of 5-10 lbs. per 1,000 sq. ft. in the spring. Application intervals can range from 30-90 days. One bag applied to a new lawn will cover 2,500 sq. feet. When applied to an existing lawn, one bag will cover 5,000 sq. ft.

Improve the flavor of your grapes and berries! This liquid fruit food includes potassium for flavor enhancement and help to promote a more uniform fruit set.

To apply, simply attach a garden hose and spray your plants!

Available in quarts

## Organic Potting Soil

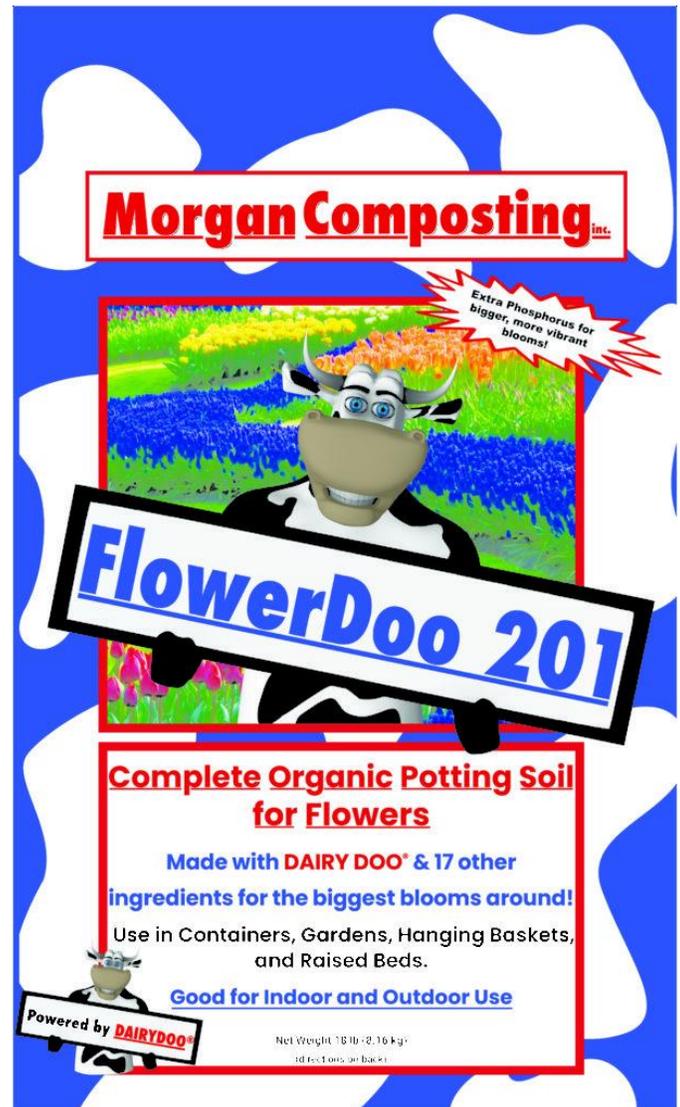

Your flowers will love the high phosphorus content, various minerals, and biology in FlowerDoo 201, responding with the healthiest flowers in the neighborhood.

This superior mix promotes huge, vibrant blooms that will flourish in your yard!

FlowerDoo 201 is specifically designed for flowering plants due to the extra phosphorus for bigger blooms. This mix also creates strong root development and will be feeding your plants until late summer. It contains DAIRY DOO plus 17 additional ingredients, including worm castings and Tennessee Brown Rock.

**Use With:** For use with all flowers. Also works well for any other plant under 8 inches tall.

**Application:** This is safe for direct planting, just wet soil well before adding plants. Can be used in containers, in raised beds or added directly into your flower garden. Works great with Healthy Garden and BloomBlaster fertilizers.

Looking to spice up your curb appeal? Tree and Shrub Mix is handcrafted for lush green growth and provides vibrant, colorful foliage for the season. Pick up a bag or two of Tree and Shrub Mix today! Our exclusive recipe jump-starts your trees and shrubs with the added kick of DAIRY DOO, poultry compost and double ground bark. This combination creates a light mix of air space as well as water holding capacity, perfect for your trees and shrubs.

Worm castings have some amazing benefits! Worm castings are the all-natural, organic amendment, that is a must-have in most gardening situations. One of the best tools available to improve root development and nutrient uptake, which is what feeds your plants!

The fungal properties of worm castings adds natural biology to your soil allowing it to be a healthy soil. It helps with water retention and pH balance. As a result of it's moisture holding capabilities Worm Doo also helps with long-term erosion.

The effect that castings have upon flowers can be stunning to behold. Not only does the increased plant vigor make the plant look better, but it can increase the plants resistance to disease, by allowing the plants' own natural defenses to do what they were designed to do.

**USE:** Sprinkle over soil and scratch in. It can also be used to make worm castings tea.

Enjoy an abundant harvest from your vegetable plants! This liquid vegetable food promotes nutrient-dense veggie growth and lush foliage. It can be used on all vegetable plants.

Apply every 7-14 days by attaching the garden hose and watering plants.

Also great for trees and shrubs!
